WORK EXPERIENCE

Quadrant Resource, Redmond, WA (Remote)   3/2020 – 10/2020
Web Data Analyst

- Analyzed search queries from search engines and AI assistants, such as Google and Bing.
- Categorized user voice queries from A.I. assistants.
- Labeled user input data using proprietary software.
- Operated the backend of Siri and Alexa including analyzing audio queries

Rev.com, San Francisco, CA (Remote)   7/2019 – 3/2020
Closed Captioner & Transcriber

- Transcribed audio and video content using Rev's proprietary software.
- Researched industry jargon and proper nouns before transcribing.
- Self-edited/proofread, typed 60+ WPM.
- Listen well to audio and pay close attention to detail.

Joseph A. Bank Clothiers, Hampstead, MD   1/2011 – 6/2017
Inventory Control Problem Solver

- Managed 6 zones of 130,000+ units of inventory
- Created Excel spreadsheets to track vendor purchase orders and reconciliations.
- Pulled and packed orders for customers and retail stores.
- Processed damages from assigned warehouse zones, and collaborated with a 6-person cycle count team to count and scan inventory across two warehouses.
